Ending Child
Abuse.

*When we stand together,
childhood is protected and families thrive.*

WE STAND WITH CHILDREN

We teach kids how to be safe, and where to get help if they need it.

We surround them with the protective circle of community, to develop the social and emotional skills they need to thrive.

WE STAND WITH COMMUNITIES

We train the professionals who work with children every day—teachers, caregivers, therapists, and more—to recognize abuse and respond with skillful action.

We educate and empower community members to speak out and fulfill our collective responsibility to watch over every child.

WE STAND WITH PARENTS

We provide support and resources to help parents access their inner capacity to build strong families.

We offer effective parent education to nourish the protective power of resiliency.

WE STAND WITH CHANGEMAKERS

We partner with government, nonprofit, and community leaders to continually improve policy, and the safety net that prevents and responds to abuse.

We uphold a system that protects abused children during the investigation process, to minimize trauma and set the stage for healing.

Ending child abuse is not only possible, it's essential.

Join us in our commitment to protect every child and the full promise of our future.
